Math&Logic

Teach your child to think out of the box!
School system doesn't teach HOW to think and usually kids can't solve math problems other than very standard ones. We'll try to help overcome this.

Our course focuses on understanding and choosing a right strategy to solve logical problems. Problems and questions are based on Kangaroo and Caribou math contests.

RUSART is an art studio operated in Greater Vancouver, providing high-quality art education and hands-on workshops to thousands of students since 2009. We offer classes, private lessons, corporate and family events for all ages, all levels and all mediums.

Our teaching philosophy is to listen to our aspiring artists and help guide them to their final masterpieces. All our teachers are professional artists and designers with many years of experience teaching arts and inspiring kids and adults to be creative. Here at RUSART FINE ARTS CO, you are not merely joining an art studio— you are joining a vibrant, supportive community! Our students are long-term clients, continuing with lessons year after year.
